

## SAMCODES App

- Development of the App is still ongoing for an improved interface and compatibility with iOS. Look out for more quizzes focusing on various SAMCODES topics.
- SAMCODES App is available for download on the Google Play store and instructions for downloading iOS version available here:

## Training programmes

The UNFC workshop was held on 20 February 2024 by GSSA with over 100 attendees. The workshop covered various topics including an update on the AMREC code and the draft UNFC and CRIRSCO bridging document, to be finalised in April 2024. The workshop recording is on the GSSA YouTube Channel and can be accessed via the link below: [2024 United Nations Framework Classification \(youtube.com\)](https://www.youtube.com/watch?v=2024-United-Nations-Framework-Classification)

AMREC is the African Mineral Resource Classification and Management System that is based on the UNFC's EFG axis, as opposed to Mineral Resource and Mineral Reserves. The focus of the AMREC is the African Mining Vision and the Sustainable Development Goals and is used by governments and NGOs to identify and track mineral inventory, and not particularly relevant to public reporting for stock exchanges.

## Committee updates

Continuation of incorporation of ESG factors into SAMCODES and recommendations for additions into SAMREC Table 1 and SAMVAL

Liaison with IMVAL for planning of conferences and alignment

SAMOG Code updates continued and will be finalised this year

Updates to SAMESG Guideline 2.0 and ESG definitions guide

Updates to the Industrial Minerals guidelines are underway

## SAMCODES ESG Working Group Activities

The ESG Working Group is finalising work on incorporating ESG recommendations into the SAMCODES. A feedback session on ESG matters will be hosted later this year after consultations.

## International Liaison

The CRIRSCO AGM will be held in Vancouver, Canada in mid-October 2024. Immediately, thereafter a Mineral Resource and Reserve conference will be hosted by CIM, also in Vancouver. CRIRSCO is also busy with CRIRSCO template updates as the CRIRSCO definitions have been approved.

## **JSE Reader's Panel**

Two new reviewers were ratified, who each have over 35 years' industry experience in Competent Person's Reporting.
